

CERTIFICATE OF TRAINING IN ADULT MALNUTRITION

These courses allow you to earn Continuing Education (CE) credits, gain expertise in that content area, and receive a certificate of training.

To create a comprehensive experience, we recommend you choose from multiple categories.

Addressing Malnutrition as part of Quality Improvement

- Call to Action: Elevating your role in patient care Part 1 and Part 2
- Connecting Nurses with Nutrition and Quality Improvement
- Fortify Your Nutrition Value: Connecting Malnutrition Research to Clinical Practice
- Managing Hospital Malnutrition: Improving Processes from Admission to Discharge
- Strengthening Outcomes in the Aging Population: Enhancing Practice, The Ascension Health Model
- The Magic of Nutrition: Collaborative Strategies to Improve Outcomes
- The Time is Now: Elevating the Role of Nutrition for Better Patient Outcomes, Part 1 & 2
- Your Collaborative Role in Reducing Readmissions
- Leading Malnutrition Quality Improvement for Better Hospital Outcomes
- Mastering the Next Level of Quality Patient Care by Addressing Malnutrition

Malnutrition and Lean Body Mass

- Critical Mass: Role of Muscle and Nursing Assessments in Strengthening Patient Outcomes
- Essential Lean Body Mass: Vital for Life, Recovery and Healing
- Lean Body Mass: Navigating the Impact of Hospitalization on Recovery and Health Outcomes
- Strengthening Outcomes in the Aging Population: Understanding Aging, Inactivity, and Nutrition
- Trends in Lean Body Mass: Identify, Intervene, Innovate

Clinical and Physical Assessment of Malnutrition and Interventions

Improving Patient Outcomes: Effectively Managing Malnutrition Risk After Discharge
Maintaining Momentum in the ICU and Beyond: Where does Nutrition Start and End?
Updates on Head and Neck Cancer Patient Care: Conquering Clinical and Nutrition Obstacles
Updates on Lung Cancer Patient Care: Conquering Clinical Nutrition and Nutrition Obstacles
Updates on GI Cancer Patient Care: Conquering Clinical and Nutritional Obstacles
Patient Simulation: Putting Malnutrition Screening, Assessment, Diagnosis, and Intervention into Practice
Strengthening Outcomes in the Aging Population: Enhancing Practice, The Ascension Health Model
Strengthening Outcomes in the Aging Population: Understanding Aging, Inactivity, and Nutrition
The Magic of Nutrition: Collaborative Strategies to Improve Outcomes
The Time is Now: Elevating the Role of Nutrition for Better Patient Outcomes, Part 1 & 2
Leading Malnutrition Quality Improvement for Better Hospital Outcomes
Mastering the Next Level of Quality Patient Care by Addressing Malnutrition
Navigating the Perioperative Landscape
Perioperative Nutrition: Implementing a Multidisciplinary Team Approach

Nursing Focused

Connecting Nurses with Nutrition and Quality Improvement
Critical Mass: Role of Muscle and Nursing Assessments in Strengthening Patient Outcomes
Finding Patients at Nutritional Risk: A Case-Based Scenario
Improving Patient Outcomes: Effectively Managing Malnutrition Risk After Discharge
Maintaining Momentum in the ICU and Beyond: Where does Nutrition Start and End?
Strengthening Outcomes in the Aging Population: Building Knowledge
