

**URGENT**  
**EXPANDED VOLUNTARY PRODUCT RECALL**  
**Glucerna Original, Ensure Harvest, and PediaSure Harvest**  
**8 oz Cartons in 24 Count Case**

August 10, 2022

Dear Valued Consumer/Patient:

Lyons Magnus, a third party manufacturer for Abbott, is expanding its voluntary recall initiated on July 28, 2022 to include Ensure Harvest, PediaSure Harvest and additional lots of Club Pack Glucerna Original Vanilla, Chocolate, and Strawberry in 8 fluid oz cartons. No other Abbott products are impacted by this voluntary recall.

This recall is being conducted due to the potential for microbial contamination, including from the organisms *Cronobacter sakazakii* and *Clostridium botulinum*. Although *Clostridium botulinum* has not been found in products, consumers are warned not to consume any of the recalled products even if they do not look or smell spoiled.

While infection related to *Cronobacter sakazakii* is rare, the common symptoms of illness could include fever, vomiting and urinary tract infection. However, vulnerable and immunocompromised populations may be susceptible to more severe symptoms.

*Clostridium botulinum* may cause a severe form of food poisoning. It can begin from six hours to two weeks after eating food that contains the toxin. Symptoms may include double vision, blurred vision, drooping eyelids, slurred speech, difficulty swallowing, and muscle weakness. Botulism poisoning can cause respiratory paralysis, resulting in death, unless assistance with breathing (mechanical ventilation) is provided. People experiencing these problems should seek immediate medical attention.

This expanded recall includes all products for the following list/item numbers.
