SUPPORT THE IMMUNE SYSTEM WITH PROPER NUTRITION

There are times when it's essential to support your patients' immune systems. Proper nutrition plays a vital role by providing key nutrients to support your patients' immune health.

ANTIOXIDANTS
Help protect immune cells from damage[1,2]

ZINC
Acts as a coenzyme in many important reactions during the immune response[2]

PROTEIN
Helps build antibodies and immune cells and plays an important role in healing and recovery[1,2]

VITAMINS A & D
Help regulate the immune system and protect against infection[1,2]

The ENSURE® range provides these vital nutrients

Ensure nutritional supplements, ranging from 1.0 kcal to 2.0kcal, provide complete, balanced nutrition, protein, 28 essential vitamins and minerals including antioxidants (vitamins A, C & E), zinc and vitamin D. They come in various formats and delicious flavours to help maximise compliance.

We are here to support you and your patients during this challenging time. Please contact your Abbott Nutrition Representative for samples or our Medical Information team at medicalinformation@abbott.com for any product related queries.
