

# Jevity 1.5kcal

1.5 kcal/ml complete, balanced, liquid with mixed fibre and FOS

## PRESENTATION

- Presented in 500 ml (772 kcal), 1000 ml (1544 kcal) & 1500 ml (2316 kcal) Ready to Hang (RTH) containers.
- Jevity 1.5kcal is unflavoured.

## USES

Food for Special Medical Purposes, for use under medical supervision. Liquid enteral tube feed suitable for long term feeding where fibre is important to maintain normal bowel function. Suitable as a sole source of nutrition or as a nutritional supplement for patients who cannot or will not eat sufficient quantities of everyday food and drink to meet their nutritional requirements.

Nutritionally complete for vitamins and minerals in 987 ml (excluding electrolytes, calculated using the UK Reference Nutrient Intake for men aged 19-50 years).

## COMMUNITY USE—PRESCRIPTIONS

Can be prescribed on a FP10 (GP10 in Scotland) for the following indications:

- Disease-related malnutrition
- Total gastrectomy
- Short bowel syndrome
- Bowel fistulae
- Intractable malabsorption
- Pre-operative preparation of patients who are malnourished
- Proven inflammatory bowel disease
- Dysphagia

All prescriptions should be endorsed ACBS (Advisory Committee on Borderline Substances).

## STORAGE

- Store unopened at room temperature.
- Avoid prolonged exposure to light.
- Once opened, unused product should be resealed and stored in a refrigerator.
- Unused contents should be discarded after 24 hours.

## DIRECTIONS FOR USE

- Ready for use.
- Administer at room temperature for tube feeding.
- The volume/flow rate should be adjusted to meet the patient's nutritional needs and tolerance. This product has a low viscosity and will pass down a fine nasogastric tube.
- A Flexitainer enteral nutrition container may be used if decanting is necessary.
- For gravity feeding, the use of a Flexiflo gravity gavage set is recommended.
- An Abbott enteral feeding pump may be used in conjunction with the Abbott enteral feeding system where a more accurately controlled delivery of feed is indicated. An ambulatory system is available for use.

## PRECAUTIONS

- In patients receiving some medications there may be a risk of drug nutrient interactions (e.g. warfarin and vitamin K). Careful prescribing and monitoring practices will serve to reduce the risk (please refer to pharmacist).
- Patients should not make any additions to the feed without consulting their pharmacist or dietitian.
- Many nutritional products contain sucrose and other sugars. It is important for patients who are taking supplements as sip feeds to observe good oral hygiene.
- When feeding to patients with dysphagia, please thicken the product as appropriate.

## CONTRA-INDICATIONS

- Not for parenteral (intravenous) use.
- Do not use in children under 2 years of age. Use with caution in children under 10 years of age.
- Not for use in galactosaemia.
- Suitable for people with diabetes provided that routine glucose checks are performed.

## INGREDIENTS

Water, maltodextrin, sodium and calcium caseinates (milk protein), high oleic sunflower oil, canola oil, soy protein isolate, fructooligosaccharides, medium chain triglyceride (MCT) vegetable oil, oat fibre, soy fibre, potassium citrate, gum arabic, tricalcium phosphate, sodium citrate, emulsifier: E322 (soy lecithin), magnesium chloride, carboxymethyl cellulose, magnesium phosphate dibasic, potassium chloride, choline chloride, vitamin C, taurine, l-carnitine, ferrous sulphate, zinc sulphate, citric acid, vitamin E, niacin, calcium pantothenate, manganese sulphate, copper sulphate, vitamin B<sub>6</sub>, thiamin (vitamin B<sub>1</sub>), riboflavin (vitamin B<sub>2</sub>), vitamin A, beta-carotene, folic acid, sodium molybdate, chromium chloride, sodium selenate, potassium iodide, biotin, vitamin K, vitamin D, vitamin B<sub>12</sub>.

## GENERAL INFORMATION

Energy density	1.5 kcal/ml
Energy distribution:	
Protein	16.5%
Carbohydrate	52.1%
Fat	28.6%
Fibre (FOS)	2.85%
