Product Information:
Liquid Protein Fortifier
Liquid Protein Fortifier
For Human Milk, Fortified Human Milk or Infant Formula

- The first and only commercially sterile, extensively hydrolyzed liquid protein fortifier for preterm infants who may require additional protein.
- Use as directed by a physician.
- Designed to be mixed with human milk, fortified human milk or formula feedings with minimal displacement for any infant who needs additional protein.
- Helps customize feedings so preterm infants can receive the optimal protein level to meet their specific needs.
- Liquid product eliminates the need for powder mixing and meets Academy of Nutrition and Dietetics (AND) and Centers for Disease Control and Prevention (CDC) recommendations to reduce risk of contamination.\(^1,2\)
- Extensively hydrolyzed liquid protein fortifier for easy digestion and absorption (the same protein source as Similac® Alimentum®).
- Convenient, multi-serving bottle.
- Gluten-free.
- Lactose-free.

Safety Precautions
- If signs of intolerance develop, slow feeding or discontinue.
- This product is nutritionally incomplete.
- Must be mixed with human milk, fortified human milk, or formula before feeding.
- Enteral use only; not for IV use.
- If signs of intolerance develop, slow feeding or discontinue.

Ingredients

**Liquid Unflavored:**
Water, and Casein Hydrolysate (Milk).
**Allergens:** Contains casein hydrolysate (milk).

**Liquid Protein Fortifier**

*For Human Milk, Fortified Human Milk or Infant Formula*

### Preparation

**Directions for Preparation and Use**
The health of the infant depends on carefully following the directions for preparation and use. Proper hygiene, handling and storage are important when preparing infant feedings.

- Do not add water.
- Shake gently.
- Do not use if breakaway ring is missing or broken.
- Twist off cap.
- Pour Liquid Protein Fortifier into medicine cup.
- Draw up volume specified by a healthcare professional into a single use oral syringe.
- Dispense into measured human milk or formula and swirl.
- Pour desired amount of mixture into feeding container.
- Discard unused dispensed fortifier.

**Fortifier**: Refrigerate after opening; use within 72 hours or discard.

**Fortified human milk or formula**: Once mixed, refrigerate and use within 24 hours or discard.

### Storage & Handling

**Storage**:
- Store unopened at room temperature; avoid extreme temperatures.
