# Similac Sensitive® Powder

## Infant formula with iron

- 1 SIMILAC SENSITIVE is a 20 Cal/fl oz, nutritionally complete infant formula that is an alternative to standard milk-based formulas. For fussiness,\* gas,\* or mild spit-up. Suitable for infants with lactose sensitivity.†
- 1 Easy-to-digest gentle carbohydrate for fussiness and gas due to lactose sensitivity.
- 1 OptiGRO® is our exclusive blend of DHA, lutein and vitamin E: these important ingredients are found in breast milk.
  - DHA for brain and eye development.
  - Lutein to support eye health.
  - Vitamin E to support developing cells.
- 1 Our exclusive formula has:
  - Calcium for strong bones - no palm olein oil.
  - Nucleotides to help support the immune system.
  - Prebiotics to help promote digestive health.
  - Carotenoids like those naturally found in breast milk.
- 1 Clinically shown to support normal growth in infants.<sup>1</sup>
- 1 A unique blend of carbohydrates using two different absorptive pathways to help maximize absorption and minimize malabsorption risks.
- 1 Low osmolality (200 mOsm/kg water).
- 1 Halal.
- 1 Kosher; made with dairy ingredients.

## Safety Precautions

- 1 Not for infants or children with galactosemia.
- 1 **Never use a microwave oven to warm formula.** Serious burns can result.
- 1 Powdered infant formulas are not sterile and should not be fed to premature infants or infants who might have immune problems unless directed and supervised by your baby's doctor.

\* Due to lactose sensitivity.

† Typical value 0.1 g lactose/100 kcal compared to Similac® Advance® (11 g lactose/100 kcal).

# Similac Sensitive® Powder

Infant formula with iron

## Preparation

### Instructions for Use:

Your baby's health depends on carefully following these directions. Proper hygiene, handling and storage are important when preparing infant formula. Failure to follow these directions could result in severe harm. Ask your baby's doctor if you need to use cooled, boiled water for mixing and if you need to boil (sterilize) utensils, bottles, nipples and rings before use.

- 1 Wash your hands, surfaces and utensils. Pour water into clean bottle (see mixing guide).
- 1 Add 1 unpacked level scoop (8.8 g) to each 2 fl oz of water. Return dry scoop to can.
- 1 Cap bottle; shake well; attach clean nipple.
- 1 Once feeding begins, use within 1 hour or discard.

### Powder Mixing Guide

Measure water	+	Add scoop(s) of <i>unpacked level powder</i> using enclosed scoop
2 fl oz		1 scoop (8.8 g)
4 fl oz		2 scoops
6 fl oz		3 scoops
8 fl oz		4 scoops

Each scoop adds about 0.2 fl oz to the amount of prepared formula. For larger size mixing instructions, please visit [www.Similac.com/mixing](http://www.Similac.com/mixing) info.

### When mixed as directed:

- 12.5 oz container makes approximately 90 fl oz of formula.
- 20.1 oz container makes approximately 145 fl oz of formula.
- 29.8 oz container makes approximately 215 fl oz of formula.

### STORAGE:

- 1 Once mixed, store bottles in the refrigerator; **feed to baby within 24 hours.**
- 1 Store unopened or opened container at room temperature; avoid extreme temperatures.
- 1 **Use opened can contents within 1 month.**
