## IMPORTANT INITIATIVES

We've dedicated a new section on our site—the IMPORTANT INITIATIVES tab—to showcase great nutrition science content from around the globe. We hope you'll take a look at what we're currently highlighting.

**INTEGRATED CARE FOR OLDER PEOPLE (ICOPE) GUIDELINES** – The World Health Organization (WHO) works worldwide to promote health and serve vulnerable populations. In 2017, they released the ICOPE Guidelines, which focus on intrinsic capacity and functional ability, rather than the absence of disease. We've consolidated these ICOPE resources so you can access them from a single location:

- A new, free continuing education program, "Applying ICOPE Guidelines" [1.0 CE/CPEU]
- The ICOPE Guidelines
- The ICOPE Guidelines Infographic
- An article, "ICOPE Evidence Profile: Malnutrition"

## NEONATAL HEALTH & THE MICROBIOME

Preterm infants have complicated nutritional needs. A growing body of research shows there's a great deal healthcare professionals and caregivers can do to help develop a healthy gut and improve outcomes for today's tiniest patients.

We've bundled together our newest neonatal health and microbiome content in our KNOWLEDGE HUB, where you'll find details about our new:

- **Summer webinar series:** Prebiotics & Probiotics in Neonatal & Infant Health [Up to 3.0 CME/CE/CPEU]
- **Podcast:** NICU Nutrition: Premies & Priorities in the NICU [0.25 CME/CE/CPEU]
- **eArticle:** Pre- & Probiotics: Enhancing Nutrition in the NICU [0.50 CME/CE/CPEU]
- **Clinical Case:** Probiotics, Prebiotics & Premies [0.25 CME/CE/CPEU]
- **Infographic:** The Microbiome & the Preterm Infant: A Paradigm Shift
- **NICU Currents:** The Neonatal Microbiome: Improving Outcomes with Prebiotics and Probiotics [1.0 CE/CPEU]
- **CE Program:** The Role of the Intestinal Microbiota in Necrotizing Enterocolitis and Neonatal Sepsis [1.0 CE/CPEU]
- **Video:** The Neonatal Microbiome

**Note:** The webinar series, podcast, eArticle, and clinical case were sponsored by an Abbott Nutrition educational grant.

## WEBINAR: BURN WOUNDS

Burn wounds can dramatically affect a patient's nutritional status and immune function. Join Dr. Joyce Black, RN, and Dr. Mary Litchford, RDN, for our free webinar, "**Burn Trauma – Benefits of a Nursing & Nutrition Collaboration**," as they review the clinical impact of burn wounds and share how a collaborative approach coupled with evidence-based medical nutrition therapy are key components of an effective care protocol for burn patients.

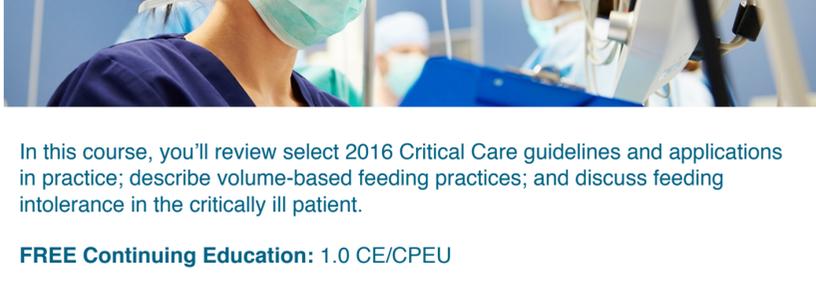

**13 June**

- **Webinar 1:** Noon-1 PM ET
- **Webinar 2:** 7-8 PM ET

**FREE CONTINUING EDUCATION: 1.0 CE/CPEU**

## HARNESSING THE POWER OF PSYCHOLOGY TO IMPROVE THE PARENT & PATIENT JOURNEY

Psychology can play an important role in motivating and supporting parents and caregivers as they implement safe and healthy diets for their food-allergic children. In this course, psychologist Philip Graves identifies psychological factors that can affect patients and families before, during and after dietetic consultations; presents psychological principles to help address challenges with parents and children; and more.

**FREE Continuing Education: 0.5 RD CPEU**
