

OBJECTIVES

- Identify clinical scenarios in labor and birth impacting the potential need for neonatal resuscitation and NICU care.
- Describe the consequences of neonatal malnutrition and barriers to diagnosing it.
- Discuss recent trends in perinatal and neonatal litigation and the role of the health care professional to provide safe care and minimize preventable harm.

SPECIAL TOPICS IN PERINATAL/ NEONATAL CARE 2024

OUR SPEAKERS

Lyssa Lamport
MS, RDN, CDN

Lyssa Lamport is the Neonatal Nutritionist at Cohen Children's Medical Center of New York. Although based out of Cohen Children's Medical Center, she serves as a consulting nutritionist for some of their outlying NICUs as well as the coordinator of their Neonatal Malnutrition Team and the Neonatal Intestinal Rehabilitation Team. Along with the lactation team she assisted in developing their human milk nutrition room. She has participated in numerous nutrition related studies including trials of Omegaven, SMOF, Prolacta, and the Abbott head-to-head human milk fortifier trial. She has also conducted her own research looking at neonatal refeeding syndrome, post-discharge outcomes of using human milk fortifier, ferritin approach to timing and dosing iron supplementation, osmolality feeding safety, the impact of pulmonary hypertension on growth and obstetrician knowledge of the nutritional impact of gastric bypass on pregnancy and supplementary iron needs of preterm infants. She has also served as one of the reviewers of the first American Academy of Nutrition and Dietetics Neonatal Nutrition Handbook.

Nancy O'Brien-Abel
MN, RNC-OB

Nancy is a Perinatal Clinical Nurse Specialist with over 35 years of experience in caring for women with normal and complicated pregnancies. She is an Affiliate Instructor at the University of Washington School of Nursing and a former Teaching Associate for the department of Obstetrics and Gynecology at the University of Washington Medical School. Nancy is a nationally recognized speaker, author, and consultant on nursing care of women in labor and birth, fetal monitoring, and patient safety. She is an active member of the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN), contributing to various position statements, evidence-based clinical practice guidelines, and authoring chapters in AWHONN's *Fetal Heart Monitoring Principles and Practice* and in AWHONN's *Perinatal Nursing*. She is an Editorial Board member for the American Journal of Maternal-Child Nursing. Nancy received her Master's in Nursing from the Perinatal CNS Program at the University of Washington and is NCC certified. She is passionate about improving the quality of perinatal care for mothers and neonates through current evidence-based clinical practice.
