

OCTOBER 2018 NEWSLETTER

BACK BY POPULAR DEMAND: FREE NATIONAL WEBINAR

In March, we conducted a live webinar that received such positive feedback, we've decided to offer it again. Our original presenters will join us for a live Q&A session once the recording has ended so you can ask questions and share your thoughts in real time.

TOPIC: An Interdisciplinary Approach to Diabetes Care

DATE: 15 November 2018

TIME: 12:30 PM Eastern Time

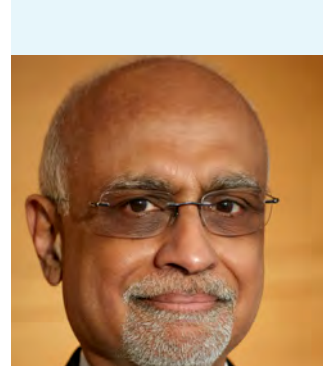

DESCRIPTION: For patients who are newly diagnosed with type 2 diabetes, it can be hard to decipher the nutritional path to better wellness. In this free, accredited continuing education program, you'll learn the critical touchpoints for diabetes self-management and education.

FREE Continuing Education: 1.0 RN CE, 1.0 RD CPEU, 1.0 CCM CE

Did you know? We've created a [diabetes toolkit](#) and [series of infographics](#) you can print and share with your patients to help them adjust to their new and healthier lifestyle.

QUOTE OF THE MONTH

Krishnan Sriram, MD, FCCM, FRCS(C), FACS

Advocate Health Care
John H. Stroger Jr. Hospital of Cook County
Rush University
Chicago, Illinois, USA

As presented at the Abbott symposium, "Early Detection of Malnutrition in the Facility and Community Setting for Improved Health and Economic Outcomes," at the IUNS-ICN 21st Meeting

On the topic of malnutrition and the quality improvement program:

"A validated nutrition screening tool should be used. Immediate provision of oral nutritional supplements should be given. Ongoing patient and caregiver education and post-discharge questions are also important. Teamwork is very important. Everyone is part of the team. Gone are the days that we say the physician is the leader."

FOR PATIENTS: COW'S MILK ALLERGY INFOGRAPHIC

Globally, approximately 2.5% of babies develop cow's milk allergy in their first year of life. Print and share this series of infographics with parents and caregivers to teach them how to keep their dairy-allergic kiddos safe as they grow and develop.

In this infographic series, parents and caregivers will learn:

- How to recognize the signs and symptoms of a cow's milk allergy
- What foods tend to contain cow's milk
- How to talk to daycares, schools, babysitters, playdate hosts and relatives about cow's milk allergy
- Whether their child will outgrow the allergy
- Whether the allergy will affect growth and development

[DOWNLOAD INFOGRAPHICS](#)

Did you know? In our new self-study course, "Clinical Presentation of Cow's Milk Allergy in Infants & Children," you'll identify the scientific features of cow's milk allergy, review dietary management for infants with allergic symptoms, and more. [Register today.](#)

FREE Continuing Education Units: 1.0 RN CE, 1.0 RD CPEU

LOOKING FOR CONTINUING MEDICAL EDUCATION?

The courses below are supported through a medical education grant from Abbott Nutrition.

- An Update on Tailored Feeding Strategies for Preterm Infants
