NOW IN ESPAÑOL: DIABETES & SURGERY TOOLKITS FOR PATIENTS

We've translated to Spanish three of our most popular infographic series and toolkits.

- **[Diabetes Toolkit](#)**: Share this helpful toolkit with your patients with diabetes to help them adjust to and keep track of their new, healthier lifestyle. *Comparta este útil kit de herramientas con sus pacientes diabéticos para ayudarlos a adaptarse y mantener un registro de su nuevo estilo de vida más saludable.*
- **[Diabetes Infographics](#)**: Print this infographic series and share it with your patients with diabetes to help them feel empowered and motivated at home. *Imprima esta serie de infografías y compártala con sus pacientes diabéticos para ayudarlos a sentirse empoderados y motivados en el hogar.*
- **[Surgery Toolkit](#)**: In this infographic, patients will learn what questions to ask about nutrition before surgery; better understand the roles of the nutrition care team; and know what vitamins and macronutrients to take in as their surgery date approaches. *En esta infografía, los pacientes aprenderán qué preguntas hacer sobre nutrición antes de la cirugía; comprender mejor las funciones del equipo de atención nutricional; y saber qué vitaminas y macronutrientes tomar a medida que se acerca la fecha de la cirugía.*

PODCAST: DIETARY INTAKE TRENDS ASSOCIATED WITH BREAKFAST SKIPPING IN DIABETES STATUS

November is Diabetes Awareness Month. To shine a light on this prevalent illness and the role nutrition can play to help manage the disease, we caught up with Dr Owen Kelly, who shared with us the results of a recent study to determine how skipping

breakfast affects dietary intake here in the US—both for people with and without diabetes.

FREE WEBINAR: NUTRITION AS A COMPLEMENT TO MEDICATION

Join us for our latest Glycemic Guardians live webinar, “**Nutrition as a Complement to Medication,**” on 27 November 2019. Elena Christofides, MD, FACE, Chief Executive Officer of Endocrinology Associates, Inc., and Endocrinology Research Associates, in Columbus, Ohio, USA, will:

- Discuss the role of medical nutrition therapy in diabetes
- Review the impact of medical nutrition therapy on glycemic response and HbA1c
- Consider GLP-1 and its role in blood glucose homeostasis
- Discuss how medical nutrition therapy can work for your patients

DATE: Wednesday, 27 November 2019

TIME:

- **US:** 9-10 AM ET
- **Dubai:** 6-7 PM GMT
- **Singapore:** 10-11 PM SGT

Glycemic Guardians is a global network of clinicians committed to educating colleagues on the pivotal role nutrition plays in diabetes management.
