

WOUND HEALING ISN'T JUST SKIN DEEP

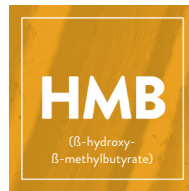

JUVEN® IS A THERAPEUTIC NUTRITION POWDER WITH POWERFUL INGREDIENTS TO SUPPORT WOUND HEALING

Promotes blood flow and protein production¹

Supports new tissue development^{2,3}

Protects muscle cells and maintains muscle tissue⁴

Stimulates internal collagen formation^{5,6}

Vitamins C, E, B₁₂, & zinc support the wound healing process⁷

To get the same amount of specialized ingredients that Juven provides in just

2 PACKETS/DAY

you would need to eat:

4 RIBEYE STEAKS (8OZ)*
for an equivalent amount of arginine

20 EGGS*
for an equivalent amount of glutamine

6000 AVOCADOS⁵⁻⁷
for an equivalent amount of HMB*

*Equivalent nutrient amounts supplied by USDA.

JUVEN® IS TARGETED NUTRITION THERAPY TO SUPPORT WOUND HEALING IN PATIENTS WITH INADEQUATE NUTRITION STORES, SUCH AS THOSE WITH:

Pressure injuries

Diabetic foot ulcers

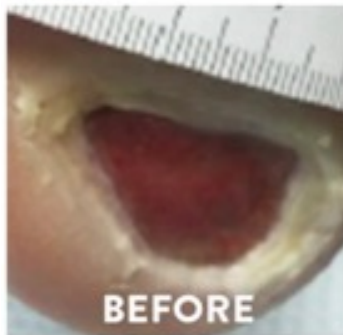

Surgical incisions

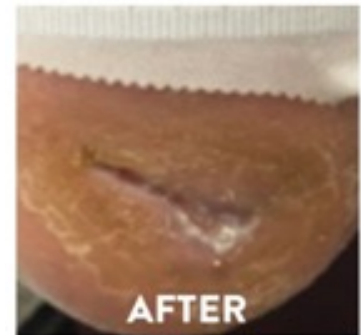

Burns

SEE THE RESULTS OF JUVEN

Pictured on the right is a patient with diabetes who had a plantar foot ulcer. When progress became minimal and slow, Juven was added to the patient's wound care plan. Results may vary depending on type and severity of the wound.

Nonhealing ulcer on the heel of the foot before the use of Juven

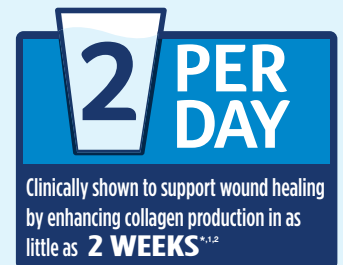

Nonhealing ulcer on the heel of the foot after using Juven 2X PER DAY for 49 days

Unflavored Juven is also available

For use under medical supervision

With 2 per day, the nutrients in Juven can support wound healing from the inside out

Where to find Juven

- Available through most home medical equipment (HME) companies
- Online at www.abbottstore.com, juven.com, or 
- In store at your local pharmacy  
- Follow us on social media  

*Studied in both healthy elderly and patients with diabetic foot ulcers, taking 2 servings per day, as measured by hydroxyproline levels.
